S.no	·	No of Ho 2
1	What is Full-Stack Web Development?	2
	Git & Development Tools HTML	
	CSS	
	JavaScript	
	Bootstrap	
	Node.JS and NPM	
	MongoDB	
	React	
	Expresss	
2	Git Tool	1
	Overview, Setting up Git	
3	Remote Git Repository, Git Commands	
	HTML Basics , Document Structure,	6
	HTML Elements	
	Styling HTML Text Content	
	Working with Lists	
	Working with Links and Styling them	
	HTML5 Elements	
	Working with Tables,Images in HTML	
	HTML5 Audio/Video Elements	
	HTML Form Elements	
4	CSS	6
	Basics of CSS ,selectors	
	Applying Colors, Fonts in CSS	
	Formating Background and Border	
	Working with Box Model & Positioning	
	working with Box- Media Queries	
	Flexbox in CSS Intro to CSS Grid	
5	JavaScript	10
5	Learning Basics of Scripting with JS	10
	Variables, Operators, Conditional/Looping Constructors	
	Working with Dialogs, Functions	
	Processing Array, String & HashTables	
	Interact wit DOM Model	
	Event Handlers	
6	Bootstrap	8
	Including Bootstrap in Web-Project	
	Develop NavBar	
	Develop NavBar Deal with Grid System & Header Section	
	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features	
	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel	
7	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery	10
7	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS	10
7	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine	10
7	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions	10
7	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine	10
7	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires	10
7	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS	10
7	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators , Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables	10
	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators , Conditional Constructs Working with Dialogs, Loops, Functions Working with DOM elements, Event Handler	
7	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators , Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables Working with DOM elements, Event Handler MongoDB	10
	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodelS Using Variables, Operators , Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables Working with DOM elements, Event Handler MongoDB Setting Up MongoDB	
	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators, Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables Working with DOM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience, Operators	
8	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodelS Using Variables, Operators , Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables Working with DOM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience , Operators Handling Relation Data & Scema Design	8
	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators , Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables Working with DOM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience , Operators Handling Relation Data & Scema Design	
8	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators , Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables Working with DOM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience ,Operators Handling Relation Data & Scema Design React Creating React Hello world Application	8
8	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V& Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators , Conditional Constructs Working with Dialogs, Loops, Functions Working with Dialogs, Loops, Functions Working with DoM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience , Operators Handling Relation Data & Scema Design React Creating React Hello world Application Understand Component-architectures in React	8
8	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodelS Using Variables, Operators , Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables Working with DOM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience , Operators Handling Relation Data & Scema Design React Creating React Hello world Application Understand Component-architectures in React Working with JSX & props	8
8	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V& Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators , Conditional Constructs Working with Dialogs, Loops, Functions Working with Dialogs, Loops, Functions Working with DoM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience , Operators Handling Relation Data & Scema Design React Creating React Hello world Application Understand Component-architectures in React	8
8	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodelS Using Variables, Operators , Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables Working with String, Array, Hash Tables Working with DOM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience , Operators Handling Relation Data & Scema Design React Creating React Hello world Application Understand Component-architectures in React Working with JSX & props Work with types of Component, & its state	8
8	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators, Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables Working with String, Array, Hash Tables Working with DOM elements, Event Handler MongoBB Setting Up MongoDB Test-Driven Experience, Operators Handling Relation Data & Scema Design React Creating React Hello world Application Understand Component-architectures in React Working with JSX & props Work with types of Component, & its state Understand Life Cycle of React Component	8
8	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators, Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables Working with DOM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience, Operators Handling Relation Data & Scema Design React Creating React Hello world Application Understand Component-architectures in React Working with JSX & props Work with types of Component, & its state Understand Life Cycle of React Component	8
8	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodelS Using Variables, Operators , Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables Working with DOM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience , Operators Handling Relation Data & Scema Design React Creating React Hello world Application Understand Component-architectures in React Working with JSX & props Work with types of Component, & its state Understand Life Cycle of React Component Design React Forms Call HTTP Service & API Request in React Component	8
8	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators, Conditional Constructs Working with Dialogs, Loops, Functions Working with Dialogs, Loops, Functions Working with DoM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience, Operators Handling Relation Data & Scema Design React Creating React Hello world Application Understand Component-architectures in React Working with JSX & props Work with types of Component, & its state Understand Life Cycle of React Component Design React Forms Call HTTP Service & API Request in React Component	8
8	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodelS Using Variables, Operators, Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables Working with String, Array, Hash Tables Working with DOM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience, Operators Handling Relation Data & Scema Design React Creating React Hello world Application Understand Component-architectures in React Working with JSX & props Work with types of Component Design React Forms Call HTTP Service & API Request in React Component Workvice & API Request in React Component Discuss React Portals, Redux Context, Hooks Routing	8
8	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators, Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables Working with DOM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience, Operators Handling Relation Data & Scema Design React Creating React Hello world Application Understand Component-architectures in React Working with JSX & props Work with types of Component, & its state Understand Life Cycle of React Component Design React Forms Call HTTP Service & API Request in React Component Work with Navigation of components Discuss React Portals, Redux Context, Hooks Routing Express	8
9	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators, Conditional Constructs Working with Dialogs, Loops, Functions Working with String, Array, Hash Tables Working with DOM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience, Operators Handling Relation Data & Scema Design React Creating React Hello world Application Understand Component-architectures in React Working with JSX & props Work with types of Component, & its state Understand Life Cycle of React Component Design React Forms Call HTTP Service & API Request in React Component Work with Navigation of components Discuss React Portals, Redux Context, Hooks Routing Express GraphQL	16
9	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators, Conditional Constructs Working with Dialogs, Loops, Functions Working with Dialogs, Loops, Functions Working with DoM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience, Operators Handling Relation Data & Scema Design React Creating React Hello world Application Understand Component-architectures in React Working with JSX & props Work with types of Component, & its state Understand Life Cycle of React Component Design React Forms Call HTTP Service & API Request in React Component Work with Navigation of components Discuss React Portals, Redux Context, Hooks Routing Express GraphQL Setting & Building GraphQL Server	16
9	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V& Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators, Conditional Constructs Working with Dialogs, Loops, Functions Working with Dialogs, Loops, Functions Working with Dom elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience, Operators Handling Relation Data & Scema Design React Creating React Hello world Application Understand Component-architectures in React Working with JSX & props Work with types of Component, & its state Understand Life Cycle of React Component Design React Forms Call HTTP Service & API Request in React Component Work with Navigation of components Discuss React Portals, Redux Context, Hooks Routing Express GraphQL Setting & Building GraphQL Server Setup MongoDB	16
9	Develop NavBar Deal with Grid System & Header Section Implement Font Awesome and features Working with Modal, Cards, Carousel Designing Forms & Image Gallery Node JS Installation, V8 Engine Globals, Functions Understand Module exports and Requires Nature of NodeJS Using Variables, Operators, Conditional Constructs Working with Dialogs, Loops, Functions Working with Dialogs, Loops, Functions Working with DoM elements, Event Handler MongoDB Setting Up MongoDB Test-Driven Experience, Operators Handling Relation Data & Scema Design React Creating React Hello world Application Understand Component-architectures in React Working with JSX & props Work with types of Component, & its state Understand Life Cycle of React Component Design React Forms Call HTTP Service & API Request in React Component Work with Navigation of components Discuss React Portals, Redux Context, Hooks Routing Express GraphQL Setting & Building GraphQL Server	16
